13. Cost Basis Election

On October 3, 2008, the Emergency Economic Stabilization Act, HR 1424, was signed into law, which included provisions from the Energy Improvement and Extension Act of 2008, requiring mutual funds to provide cost basis reporting to their customers and the IRS. First Eagle Funds will provide cost basis information to you and the IRS for shares purchased on and after January 1, 2012 (covered shares). If you have purchases or transfers made into your account with shares purchased prior to January 1, 2012 (non-covered shares), we may be able to provide you an average cost for these shares.

Please indicate which type of cost basis reporting you would like First Eagle Funds to furnish you and the IRS for this account.

- Average Cost** – Calculates the cost of shares in an account by averaging the cost of all purchases made after January 1, 2012. Shares will be redeemed in a first-in first-out order for the average cost method.
- First-In First-Out** – Shares acquired first in the account are the first shares depleted.
- Last-In First-Out** – Shares acquired last in the account are the first shares depleted.
- High Cost** – Shares acquired with the highest cost per share are the first shares depleted.
- Low Cost** – Shares acquired with the lowest cost per share are the first shares depleted.
- Loss/Gain Utilization** – Depletes shares with losses before gains, consistent with the objective of minimizing taxes. For shares that yield a loss, shares owned one year or less (short-term) will be redeemed before shares owned more than one year (long-term). For gains, long-term shares will be redeemed before short-term gains. With favorable long-term gains rates, long-term gains are given priority over short-term gains to reduce tax liability.
- Specific Lot** – Shareholder selects which lots to deplete at time of each redemption. When selecting Specific Lot, please choose a secondary method to be used as an alternate in the event specific lot depletion information is not provided:
 - First-In First-Out Last-In First-Out Loss/Gain Utilization
 - High Cost Low Cost

If you select Specific Lot, a secondary method is required. If no selection is made, it will default to First in, First out (FIFO).
